

WASHINGTON METROPOLITAN AREA TRANSIT COMMISSION

WASHINGTON, D.C.

ORDER NO. 3187

IN THE MATTER OF:

Served July 1, 1988

Application of DYNAMIC CONCEPTS,)
INC., for Special Authorization to)
Conduct Charter Operations — NIAID)

Case No. CP-88-06

By application filed May 24, 1988, Dynamic Concepts, Inc. ("DCI"), seeks authorization to conduct charter operations pursuant to WMATC Special Certificate of Public Convenience and Necessity No. 1 under a contract with the United States Department of Health and Human Services, Public Health Service, National Institutes of Health, National Institute of Allergy and Infectious Diseases ("NIAID"), transporting employees of and persons traveling on official business with NIAID, together with mail, express, and baggage in the same vehicle as passengers, between the Twinbrook Building, 12441 Parklawn Drive, Rockville, Md.; the Control Data Building, 6003 Executive Boulevard, Rockville, Md.; the Westwood Building, 5333 Westwood Avenue, Bethesda, Md.; and points on the National Institute of Health's Campus, 9000 Rockville Pike, Bethesda, Md.

Order No. 3174, served May 27, 1988, generally described the evidence originally submitted with the application and directed the applicant to file an affidavit of publication, a statement of revenue and revenue deductions from the proposed operations, evidence of ownership or possession of a 15-passenger vehicle to be used in the proposed operations, leases pursuant to Commission Regulation No. 69 covering each vehicle to be used in WMATC operations, and a certificate of insurance in conformance with Commission Regulation No. 62.

DCI filed the required affidavit of publication and leases evidencing possession of a 15-passenger vehicle. It also filed a statement of revenue and revenue deductions which projects \$63,663.94 in revenues from the proposed operations and \$60,632.32 in expenses. In addition, DCI filed an appropriate insurance certificate, an affidavit that its vehicle has been identified with WMATC No. 140, and a cover sheet for its WMATC Tariff No. 1. No protests to the application were received by the Commission within the time set therefor.

Commission Regulation No. 70 provides that an application of this type will be granted if it is determined that the applicant is fit, willing, and able to perform the proposed service properly and to conform to the provisions of the Compact and the rules, regulations, and orders of the Commission thereunder, and if it is determined that

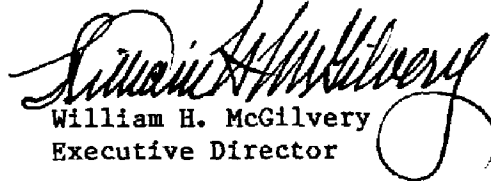

the proposed operations conform to the provisions of Regulation No. 70. The issue of whether the public convenience and necessity require such service has been determined in Case No. MP-79-04. See Order No. 2004, served June 20, 1979.

Inasmuch as the contract is for a fixed term of at least 181 days and provides for the transportation of employees and persons traveling on official business with a government agency, the Commission finds that this application conforms to the requirements of Commission Regulation No. 70. It is further found, based on the evidence of record as described in Order No. 3174 and this order, that applicant is fit, willing, and able properly to provide the service described above and to conform to the requirements of the Compact and the rules, regulations, and orders of the Commission thereunder.

Accordingly, Authorization No. SP-140-01 will be issued to Dynamic Concepts, Inc., authorizing the operations proposed.

IT IS SO ORDERED.

FOR THE COMMISSION:

William H. McGilvery
Executive Director
